Junior cybersecurity analyst
WeCode, Abidjan · 2025

Cybersecurity
Cisco Networking Academy · 2025

Web development
IBM · 2025

Full-stack development
DigiFemmes Academy · 2023 – 2025

Bachelor's degree in German
Alassane Ouattara University, Bouaké · 2020 – 2023

Raïssa Bohité

Front-end developer

PROFILE

Front-end developer in fintech. I design and build accessible, secure interfaces and dashboards, applying OWASP best practices. Trained in full-stack development (DigiFemmes Academy), then in cybersecurity (WeCode, Cisco).

EXPERIENCE AND PROJECTS

Front-end developer · Freewan, LEBEDOO (fintech super app, in development) June 2026 – present

- Built the pre-launch landing page and the waitlist sign-up flow (Next.js, Tailwind CSS, React Hook Form, TanStack Query).
- Building the Next.js back office: financial dashboard, card and transaction management, role-based access control, API integration.
- Applied OWASP standards: server-side validation, CSP and HSTS headers, parameterised queries.

Creator and developer · Fassbar, AI tutor for language courses 2025 – present

- Designed and built an AI tutor that turns course material into summaries, exercises and conversations (SvelteKit, Cloudflare D1 and R2, Claude API).
- Launched the waitlist: 110 sign-ups in 24 hours; beta running with first testers.

Front-end developer · MooMall and Moomen Pro 2025

- Integrated mobile money payments (Wave, Orange Money, MTN, Moov) into a marketplace for African SMEs.
- Built the Moomen Pro landing page, optimised for Core Web Vitals and SEO, and produced its motion design video.

Front-end developer · Ateliya 2025

- Built the landing page of a management app for tailoring workshops, and the Malliya showcase for fashion designers (Astro, Tailwind CSS).

Other work
Yofeii Délices, e-commerce and dashboard (Astro, React) · School ERP, multi-school software (Next.js).

AWARDS

1st prize · DiplomaChain, blockchain-based diploma authentication · WeCode Hackathon, 2025

1st prize · AI credit scoring platform · Féminitement Digital, DigiFemmes, 2025

Finalist · Orivie, health and open data platform · IvoireTech Forum, ANSUT, 2025

1st prize · Academic exchange forum · DigiFemmes Hackathon, 2024
